Are you interested in a few hours of religious educational fun, and fellowship? If so, you will not want to miss:

### **A (Very) Brief Introduction to Medieval Theology**

Presented By Jack Ciancio, DRS

Sponsored by Winston Salem Friends Meeting

#### **What is Medieval Theology and why should you care?**

Are you among the pre-damned? What is the nature of the Divine? How could Jesus be both human and divine? What did non-Christian theologians contribute to the development of Christianity? From Augustine to Aquinas, the greatest theologians in history sought to answer those questions and more. Their work helped form the foundation of Christian dogma and created an unparalleled body of religious thought known as *Medieval Theology*. This faith-enriching review will introduce you to the individuals, their creative theological thought, and their enduring writings. It will add to your understanding of the complex development of the Christian faith.
