

**North Carolina Fellowship of Friends
Religious Society of Friends (Quakers)**

A Yearly Meeting Affiliated with Friends United Meeting
With Member Monthly Meetings in Florida, North Carolina and Virginia
417 Keaton Way, Suffolk, VA 23434

The North Carolina Fellowship of Friends met for business on 3/9/2024. With inspiration from the Minute adopted by Virginia Beach Monthly Meeting on 1/28/2024, we adopted the following Minute:

“We, the members of the North Carolina Fellowship of Friends, are heartbroken and stricken with horror and grief at the recent renewed eruption of violence in Israel, Gaza, and the West Bank. We call for an immediate ceasefire by both Israel and Hamas, the prompt release by Hamas of all hostages, and the release of all uncharged prisoners by Israel. We call on the U.S. to urge Israel to expedite the flow of humanitarian aid to relieve the tremendous suffering that has been created in Gaza with the immediate provision of food, shelter, water, and medicine. We strongly urge the United States to no longer provide Israel with funding for weapons.

As Quakers, we believe that each life is sacred, and we know that the use of violence as a means of settling conflict is unacceptable and leads to further violence, which we already see happening around the region.

We strongly condemn Hamas’ horrific deadly October attacks on Israeli citizens, its inhumane treatment of civilians, and its taking of hostages, most of whom are still being held and are in danger. We also condemn the ongoing unrestrained and violence response by Israel in its siege of Gaza, which has left thousands of civilians dead or wounded and caused a humanitarian crisis in Gaza. People are suffering, dying, and being displaced in Gaza as a preventable humanitarian crisis worsens. Also, Palestinians in the occupied West Bank are increasingly endangered by escalated violence by settlers and the military.

We hold in our hearts and in the Light all those in Israel, Gaza, and the West Bank and beyond, and grieve and mourn the deaths of their family and friends. We hold in the Light those who await the return of their loved ones who are being held by Hamas or who are held in Israeli prisons without charges or trial. This ongoing violence continues to rip the hearts of those who grieve and leads to fear and hatred of the “other.” We condemn Antisemitism and Islamophobia and their accompanying rhetoric which dehumanize the “other.”

We further call for Israelis and Palestinians from Gaza and the occupied West Bank to undertake a meaningful dialogue, with the support of international powers including the U.S. We urge our United States government to advocate for the support of United Nations resolutions and to uphold established international laws. All must use every available resource to support a diplomatic rather than military resolution to the conflict—a resolution that prioritizes safety for all Israelis and Palestinians and which accords equal human rights to the Palestinians and respect for all.”

In the hope of peace,

Richard J. Wilcox
North Carolina Fellowship of Friends, Clerk
